**NOTICE**

All former college students are hereby informed that their institutional email addresses will be disabled after a week. If any student has saved information in any of the Google products that are linked (such as Drive, Documents, Photos, Email, etc), then move or backup the information to local storage or another cloud.

Students who are currently enrolled are advised to update the phone numbers on the institute-issued email IDs because they will otherwise be disabled. You can get more help by contacting the Government Degree College Bijbehara Library.
